# Web: Chrome

⚡ The Prezi Video web editor is only supported on current Chrome browsers.

Web dashboard

## Reusable videos

A reusable Prezi Video lets you copy, edit, and customize its content to use in your own video creation. We remove the original creator and make you the star instead.

- Reuse video content from any public Prezi video
- Reusable videos can only be created in the web editor

Reusable videos can be found in the web editor (second tab) and on the Prezi Explore page

## Designer templates

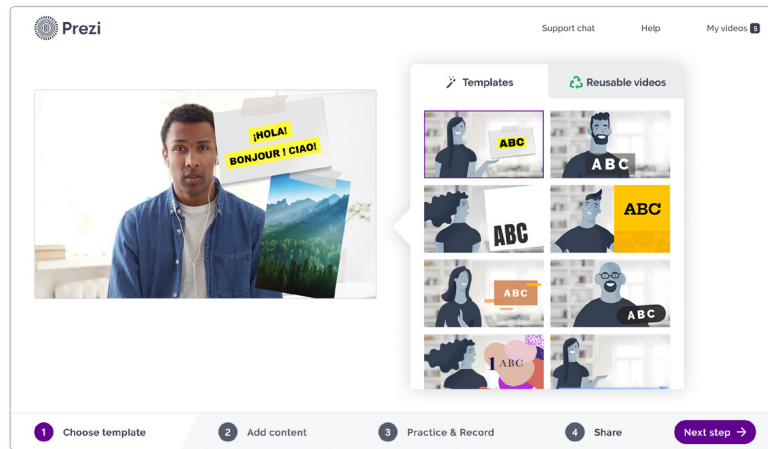

Get started fast with pre-designed templates, and have a video ready to share in no time.

- 54 designer templates available, including 11 animated templates

Templates can be found in the web editor (first tab)

Web editor

## Video creation

Easily drag and drop images from Prezi's huge image and icon library or your computer.

- Add one picture or icon plus 100 text characters per frame
- 15-minute recording time limit per video
- 15-frame limit per video
- 720p video resolution

## Video recording and streaming

Easily record and stream with 3 different view modes per frame:

- **Presenter View:** The presenter and content are visible on-screen at the same time
- **Content-Only View:** The presenter is not visible and the view zooms in on the content
- **Presenter-Only View:** The content is not visible and the view is on the presenter

### Keyboard Shortcuts

#### Move from frame to frame

Backward ←

Forward →

#### Switch view modes

Presenter 1

Content-Only 2

Presenter-Only 3

## Video editing

- Trim the beginnings and endings of your videos
- Record as many takes as needed.

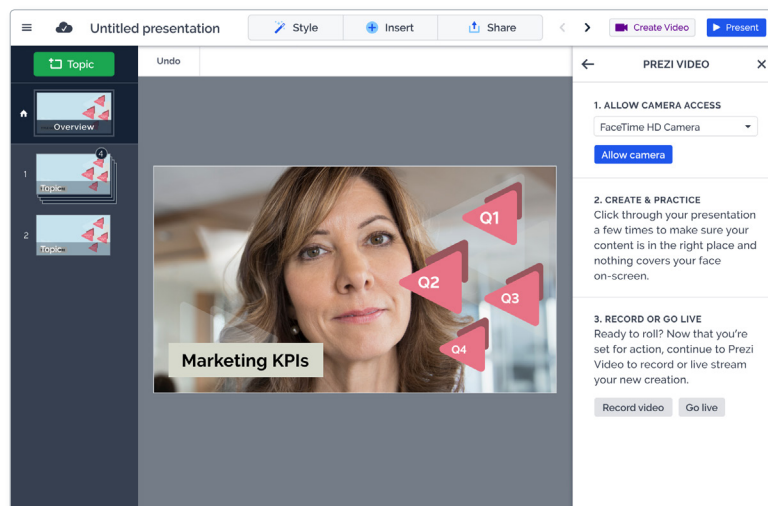

## Using a Prezi presentation as the basis for your video

Create a video from scratch from the [Prezi Video dashboard](#).

- Prezi templates in **Advanced Create** support multiple images, text blocks, color schemes, and zooming
- Videos made with the **Advanced Create** function have a 15-minute recording time limit. However, these videos do not have a frame limit.

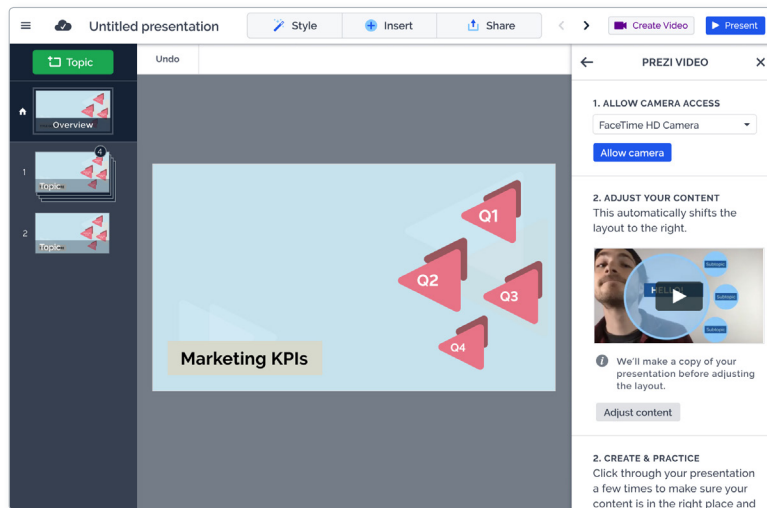

Prezi templates optimized for video can be found with the **Advanced Create** button located in the dashboard header menu.

Web editor: **Advanced Create**

Create a video using your existing Prezi presentation via the [Prezi Presentation dashboard](#).

- Select a Prezi presentation. Click on the dropdown, then select **Record Video**. You can then easily adjust your content to fit the video recording layout.

Prezi Presentations editor (web). Start from a Prezi presentation and adjust its content for optimal video recording.

## Using a PowerPoint presentation as the basis for your video

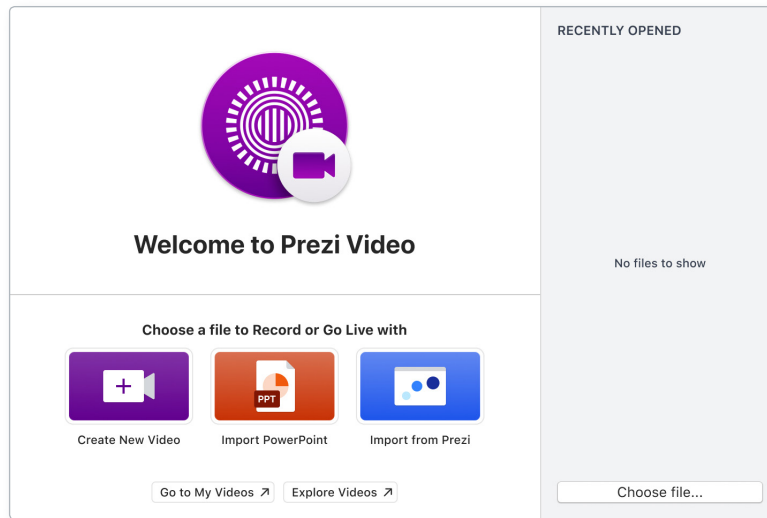

The web will direct you to download the Prezi Video desktop app

## Live stream

The web will direct you to download the Prezi Video desktop app

## Desktop: Mac OS 10.13+

Mac welcome screen

### Templates

Get started fast with pre-designed templates, and have a video ready to share in no time.

- 54 designer templates available, including 11 animated templates

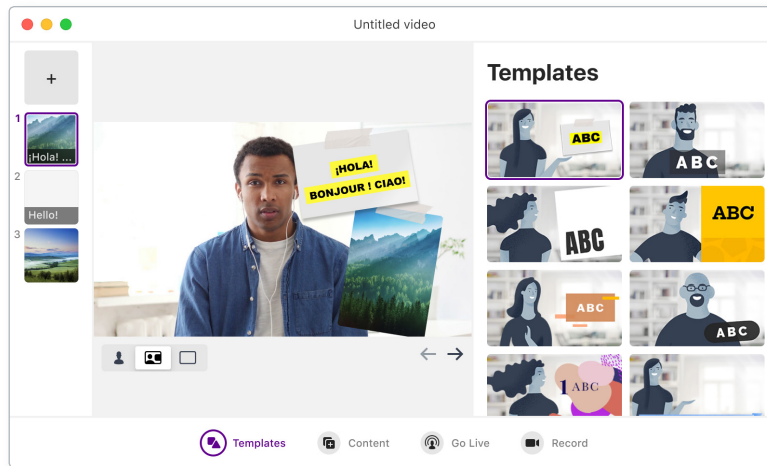

Templates can be found by clicking on the **Create New Video** button on the welcome screen.

### Video creation

Easily drag and drop images from Prezi's huge image and icon library or your computer.

- Add one picture or icon, plus 100 text characters per frame
- Unlimited recording time
- Full HD-quality video resolution (1080p)
- No frame limit per video

Mac desktop app

## Video recording and streaming

Easily record and stream with 3 different view modes per frame:

- **Presenter View:** The presenter and content are visible on-screen at the same time
- **Content-Only View:** The presenter is not visible and the view zooms in on the content
- **Presenter-Only View:** The content is not visible and the view is on the presenter

## Video editing

- Trim the beginnings and endings of your videos.
- Use as many takes as needed.

## Using a Prezi presentation as the basis for your video

---

Simply select the Prezi presentation that you would like to use and you're ready to record your video or stream live.

⚡ *Editing your Prezi presentation from the Prezi Video desktop app is not possible at this time.*

## Using a PowerPoint presentation as the basis for your video

---

Simply select the PowerPoint presentation that you would like to use, select a pre-designed template for placing your slides, and start recording your video or streaming live.

## Live stream

---

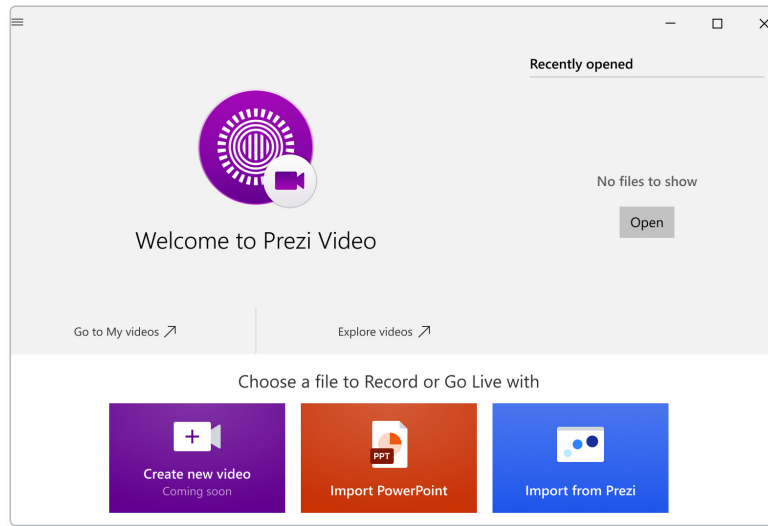

⚡ *Streaming is available only through desktop apps.*

- Press the **Go live** button to stream via Webex, Zoom, GoToWebinar, plus many other streaming desktop apps. The streaming desktop app and the Prezi Video desktop app must both be open to establish a connection.
- Once in your streaming desktop app of choice, you'll need to select the Prezi Video camera to display Prezi Video content.

## Desktop: Windows 10+

⚡ *Chromebooks do not support Prezi Video.*

Windows welcome screen

### Video recording and streaming

- Unlimited recording time
- Full HD-quality video resolution (1080p)
- No frame limit per video

Easily record and stream with 3 different view modes per frame:

- **Presenter View:** The presenter and content are visible on-screen at the same time
- **Content-Only View:** The presenter is not visible and the view zooms in on the content
- **Presenter-Only View:** The content is not visible and the view is on the presenter
